

What if your  
sellers never  
had to wait  
to get paid  
again?

Invoice Automation

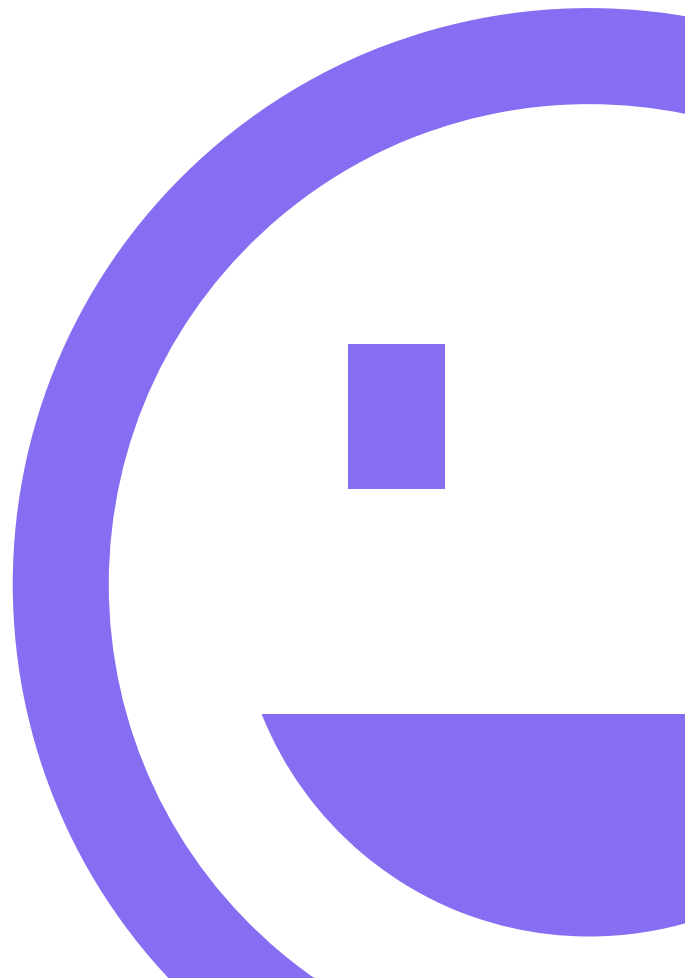

Cash

# We get sellers paid faster.

Now, you can hold onto your cash longer while helping the sellers you love get paid sooner. Other early payment solutions work sometimes, for some of your sellers. Tradeshift Cash is different because it's driven by your existing relationship with the seller.

# Why Cash is different

Other early payment solutions work sometimes, for some of your sellers. Tradeshift Cash is different because it's driven by the invoice history in your network, not the credit history of your seller. That means more of your sellers

can get paid early and predictably. And you can build a stronger supply chain by giving sellers access to always-on cash flow. Real value for sellers, faster onboarding, more durable supply chains. That's the power of *Cash*.

## Pay sellers faster.

Cash leverages historical transaction data between you and your sellers to provide faster financing on qualified invoices. This way, sellers you trust get paid fast. Like two-days-or-less fast.

## 24/7 predictability.

Cash is always on—no more missing payroll, no more supply chain disruptions. Your sellers get the cash flow they need and you get a supply chain that's unbreakable.

## Early payments for all.

Cash can work alongside your legacy early payment solution—or replace it altogether. Where traditional dynamic discounting and supply chain finance only work for sellers of a certain size, Cash is for everyone.

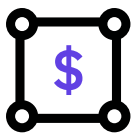

## Keep your sellers coming back for more.

On the Tradeshift network, you can onboard sellers quickly by rewarding them with actionable network data analytics and faster financing. Keep them continuously engaged with Cash and the promise of early, predictable cash-flow. The more of your sellers that do business with you digitally, the stronger your network will be and the more successful your digital transformation project will be.

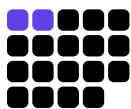

## The platform that puts sellers first

One in four businesses are impacted by the financial failure of a seller. With Cash, you can take a direct stand in making sure your sellers don't fail. And when your sellers see that you're invested in their future, they'll onboard your e-invoicing solution fast. When you put seller value first, you create more value on both sides.

Scalable financing coverage for sellers of all sizes

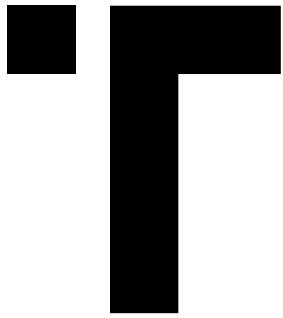

Relationship-driven financing for faster seller payments in as little as 2 days

Always on predictability for cash whenever sellers need it

Tradeshift Wallet

## Why wait? Get your sellers paid faster while you keep your cash longer.

### About Tradeshift

Tradeshift drives supply chain innovation for the digitally connected economy. As the leader in supply chain payments and marketplaces, the company helps buyers and suppliers digitize all their trade transactions, collaborate on every process, and connect with any supply chain app. More than 1.5 million companies across 190 countries trust Tradeshift to process over half a trillion USD in transaction value, making it the largest global business network for buying and selling.
